HTML/CSS
GUI Scripting

Interests

Sports

Handball, trail running, cycling

Experience

November 2023 - October 2025 — Agile & Kanban

Product Designer @Decathlon Travel (FRA)

Leading the design efforts for Decathlon Travel's website as well as business apps aimed at our internal teams and travel partners, focusing on optimizing UX, navigation and interaction patterns.

- User research, usability testing & data analysis (Content Square)
- Creation of mockups, wireframes & prototypes (all fidelity levels)
- Iterations on designs based on user feedback, analytics & trends
- Cross-discipline collaboration (product managers, developers, marketers) to ensure alignment with business goals & user needs
- Design System implementation (based on Decathlon's)
- Championing user-centric design principles and best practices within the organization

October 2022 - November 2023 — Agile & Waterfall

UX/UI Designer @Paradox Development Studio (SWE)

Ease the learning curve while making UI interactions feel intuitive & informative. Defining & applying the UX vision on new & revised UIs.

- Creation of mockups, wireframes & prototypes (all fidelity levels)
- Audit & revamp of players onboarding
- UI implementation (GUI scripting)
- Cross-discipline coordination (game design, code, UI art)
- Evaluation & improvement of existing UIs & gameplay mechanics
- Collection of valuable insights on players' behaviours through collaboration with analytics & user research
- Coordination of external studios work related to UX/UI

June 2017 - August 2020 — Agile

Digital Project Manager @Supair (FRA)

Led the revamp of Supair's digital ecosystem: B2B website development & B2C website redesign to enhance brand visibility.

- B2B : Stakeholder coordination, user journey & flows definition
- B2C : UX/UI improvements, content structuring & optimisation
- Digital campaigns strategy & execution (emailing, social media)
- Budget monitoring & performance tracking (reporting to the CFO)
- Creation of key marketing materials (product sheets, brand book)
